

HYDROGEN INFRASTRUCTURE FOR TRANSPORT HIT-2-CORRIDORS

Welcome to the inauguration of the first hydrogen refuelling station in Gothenburg!

Hydrogen is a fuel with extremely low environmental impact. Vehicles are fuelled with hydrogen, which is transformed into electricity, and the only emission is water vapour.

On the 26th of October the inauguration of the first permanent hydrogen refuelling station in Gothenburg will take place. It will be possible for buses as well as cars to refuel at the station. After the inauguration ceremony, fuel cell cars will be displayed and test-drives offered. Then you are welcome to join a seminar regarding fuel cell cars and hydrogen infrastructure.

Date: Monday 26th of October

Time: 13:00 - 16:00

Venue: Powercell, Ruskvädersgatan 12, Gothenburg

Programme

- Inauguration ceremony where the minister of infrastructure will cut the ribbon.
- Seminar regarding fuel cell cars and hydrogen infrastructure
 - Financiers of the refuelling station present the project
 - Politicians motivate the investment
 - Stakeholders describe their engagement in the project

RSVP by October the 16th to anmalan@vatgas.se We hope to see you there!
